

Alcohol Intoxication Treatment

CALL 102 IF THE PERSON HAS THESE SYMPTOMS OF ALCOHOL POISONING:

- Mental confusion or unconsciousness
- Repeated vomiting
- Seizures
- Slow or irregular breathing
- Low body temperature
- Pale, clammy, or bluish skin

1. Stop Further Drinking

- Leave the place where the alcohol is, or put the alcohol away.
- Coffee, cold showers, and other traditional remedies don't work.

2. Keep the Person Safe

- Never allow someone to drive when they are drunk.
- Keep the person away from machinery, bicycles, skateboards, swimming pools, and other hazards.
- Watch for signs of alcohol poisoning.
